Fisheries Research Reports. These reports contain the results of experimental investigations of fisheries problems, analysis of long-term observations of fish populations or catch data, and comprehensive life history studies. Reports prior to 1969 are not digitized, though they may be available in the future. Additional Research reports on other topics can be found at http://www.michigan.gov/dnr/0,1607,7-153-10364_10951_19056---,00.html

Fisheries Division Reprints

Fisheries Division Reprints are copies of articles written by Fisheries Division staff that have been printed in journals, magazines, or the publications of other institutions i.e., Great Lakes Fishery Commission.

This is a **complete** list of reprints. The list has been divided alphabetically by author and numerically by acquisition number to facilitate browsing.
